

Physicians Medical Group of Santa Cruz
ED Utilization Report

Provider Name: [Redacted]
Specialty: Family Practice
Plan: Commercial

Your Patients' ED Visits/1000 and Your Patients'
Potential ED Visits/1000 with Reduction in
Avoidable Visits 07/01/2008 through 12/31/2008

Opportunities for reducing ED visits include targeting conditions that can be treated in the office in your patient population, patients had avoidable ED visits with the diagnoses listed below. Please note that patients may be listed more than once if there are multiple avoidable diagnoses, however, the actual ED encounter per date of service is counted as only one (1) distinct visit.

PMG is happy to work jointly with your office to improve access and patient satisfaction. Please contact Dr. Greenstreet at 831-465-7619 for more information.

Personal Physician ED Reports

EMERGENCY DEPARTMENT USAGE FOR YOUR PMG PATIENTS
April 2009

Review the list and see why and on what day each patient went to the ED.
 Do any patients need education about appropriate use of the ED?
 Do any patients need a follow-up appointment with you?
 Do any patients with frequent ED visits need a specialty consult?
 Would any of these patients benefit from PMG Case Management?

**The goal is for our patients to see YOU for their health care, and save the
 Emergency Department for true emergencies.**

DR. AMY CULVER

PATIENT NAME	DOB	WEEKDAY	ER	DIAGNOSIS
XXXXXXXXXX	04/05/2009 12	Sunday	SANTA CRUZ EMERGENCY PHYS	SYNCOPE AND COLLAPSE
